About us

We are Clint and Marina – hi!

From our desire to creatively “wineify” all kinds of get-togethers, Dineysos was born: an innovative and unique provider of wine game concepts that will turn your event into the new hot topic in an unconventional way.

Our story begins like many others: After the third bottle of wine, we came to the realisation that a majority of events these days are very generic and the people have been waiting for something new. By combining a little pastime with the aforementioned wine, a solution was quickly found: Dineysos!

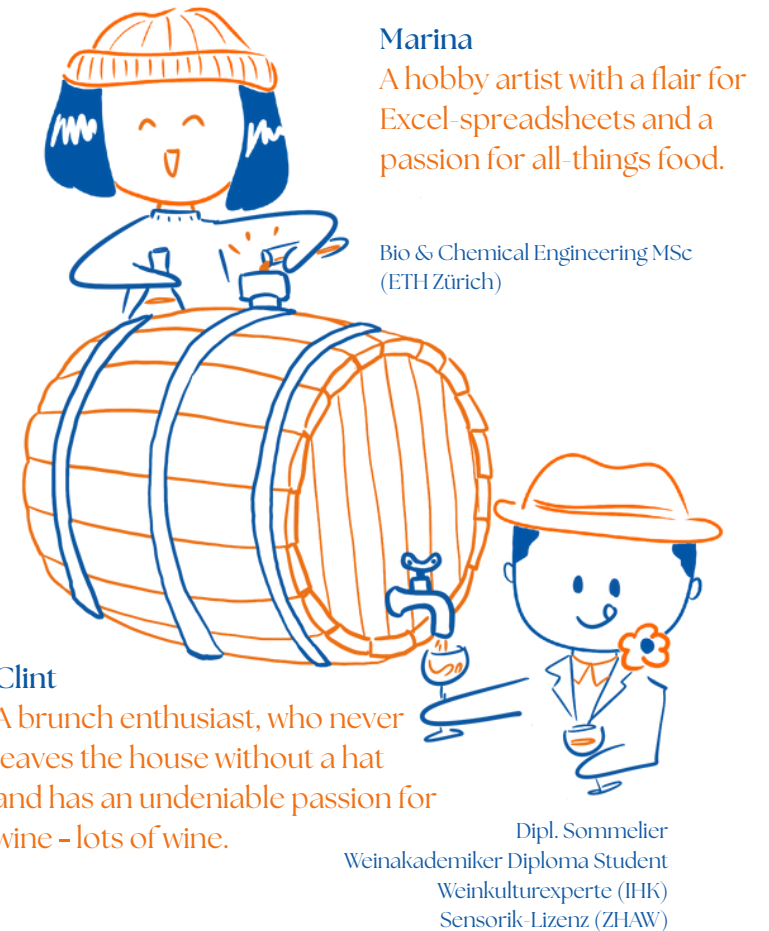

Our concepts are educational, fun as well as flexibly adaptable and can be perfectly integrated into afterworks, employee events, dinner parties and any other kind of happening.

Everything is possible, from a simple “we bring our games and a suitcase full of wine” to a complete event with a suitable location and culinary delights.

You can find all the details and more precise information on the following pages.

Happy reading and discovering!

PS: A cold glass of Chardonnay or freshly squeezed orange juice pairs wonderfully with this reading.

Our Concepts

Dineysos combines the fascinating world of wine with the amusement of a game night. All your senses are required: will your sense of taste deceive you, perhaps the inconspicuous cork will give you a clue or the bottle feels a little too light for a high-quality wine, who knows?

Our concepts are extensively tested and scalable in terms of size, budget and level of difficulty:

Trophy

Several wine selection challenges await you, in which wine knowledge is rather modestly useful. Very engaging, more or less informative and with a glorious winner* at the end.

Classroom

This game sends participants home wiser (at least wine-wise) than they already are. Wine knowledge is not required, but can be included in adjustment of the level of difficulty and information.

Olympics

What enhances any concept? Exactly, more wine. Olympics sets one series of wines in competition with a second series. Olympic Games with wines, so to speak. This concept is especially ideal for highlighting the nuances that go into wine making.

Formats

Each Dineysos concept only comes to life through your event, the possibilities and combinations are endless. The rustic gastronome around the corner interested in embarking on a wine & dine adventure will receive just as suitable a suggestion from us as the fancy tech company organising its 500 person employee event or the individual planning a dinner party at home.

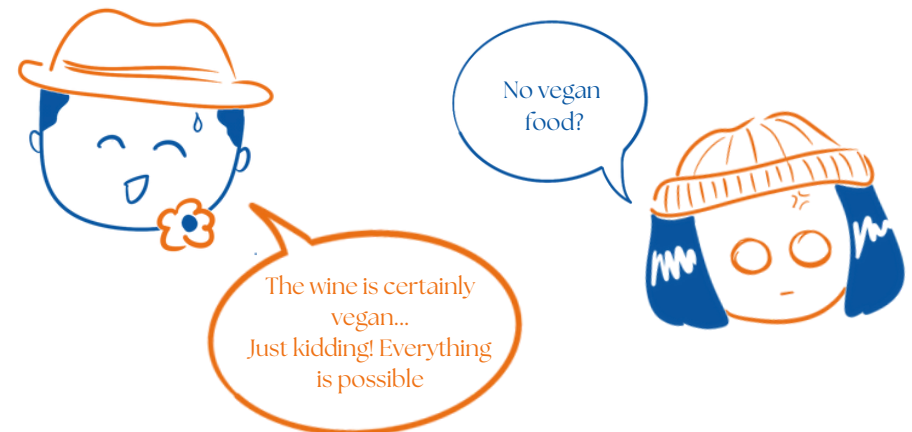

Our goal is to make every event unique, but we would like to share our recommendations for concept-format combinations:

	Wine & Dine	Flying Dinner	Afterwork Chill	Standing- Aperitif	Degustation / Workshop
